

LEADING THE PACK WITH A HOWLING IT STRATEGY

📍 <https://www.wolves.co.uk/>

👤 Approx. 500 users

A professional football club based in Wolverhampton.

The Client

Established in 1877, Wolverhampton Wanderers F.C (Wolves) is known as a professional English football club in Wolverhampton. From 1889, Wolves have played at Molineux Stadium and continue to compete in the premier league.

“For almost two decades, Air IT have provided exceptional service to Wolves and have been involved in our largest projects.”

Key Outcomes

- ✓ Proactive 24/7 Network Monitoring
- ✓ Full 24/7 IT Support
- ✓ Permanent On-site Resources
- ✓ Virtual IT Director
- ✓ Bespoke Intranet for Internal Use

The Challenge

In order to return to the premier league and advance to the group stage, Wolves needed to make some major changes to their IT set-up. This included ensuring that their IT Infrastructure was consistently up-to-date, a new SharePoint-hosted website was created, and that their network was fully monitored 24/7. It was also essential for the club to have permanent resources, including a virtual IT director and onsite engineers.
